Simplifying Research Writing

# OVERVIEW

An 8-sessions, skill-based masterclass in research writing for school students from classes 9-12. Led by seasoned professionals in the field of research and academics, this course will equip learners with the skills of conducting focused research, formulating arguments and structured writing.

Through mentored group sessions, learners will cover topics such as crafting a research question, writing a literature review, referencing and citation, harnessing AI writing tools and many others.

The course comprises sessions with each session building on the learning from the previous ones. Each of the sessions addresses a specific milestone in the research process. Through interactive peer sessions and mentor feedback, students will be equipped with the requisite skills to critically evaluate sources, build arguments and present their findings in a structured and organized manner.

# COURSE STRUCTURE

## **SESSION 1**

What is research, its component skills, types of research, their applicability across subjects.

## **SESSION 2**

The concept & importance of a research question. Participants learn to convert a research topic into a research question.

## **SESSION 3**

Essay structure. Concepts of methodology, sub-topics, counter-arguments & suggested lengths of each section will be discussed & implemented.

## **SESSION 4**

Literature Review. Learn to read & understand existing literature on a topic. Identify gaps and map your readings around the research question. Participants embark on a journey of reading & exploration

## **SESSION 5**

Types of sources and how to identify credible ones and evaluate them. Methods of source analysis are discussed and applied.

## **SESSION 6**

Academic integrity and plagiarism. Different systems of referencing and citations are explained.

## **SESSION 7**

This session explores some ways in which AI tools can be utilized in supporting research, along with necessary safeguards for academic authenticity and integrity.

## **SESSION 8**

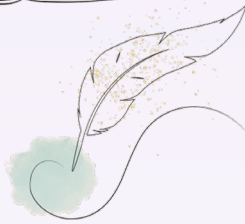

The participants will reflect upon their experience of writing and share their unique learnings with the group.

GST (18%): ₹ 3,600  
Total: ₹ 23,600

***Note: There may be a minor internet handling fees added to the total if payment is made through our payment gateway.***

# FAQs

## **What will a student get from this course?**

This is a skill-based course that equips students with the tools of academic research and enables them to write high-level academic essays.

## **Who is this course most suitable for?**

This course has been designed keeping in mind the needs of high-school students preparing for college. It is most suitable for students between classes 9-12. For students enrolled in the IBDP, it will also equip them with the tools to tackle their extended essays and internal assessments. For CBSE students and students enrolled in curriculums that do not teach academic writing, it fills a gap that is likely to help while applying to colleges.

## **Will this course help a student prepare for standardised tests (like IELTS, TOEFL, SAT etc.)?**

No. This is not a test-prep course.

However, the writing skills learned in this course are likely to help students approach English tests with confidence and clarity.

## **Do you offer ghost-writing services?**

No. We strictly do not write essays for other people. Our goal is to impart knowledge and skills to our students and give them the support to research and write their own work.

## **Do you offer translation services?**

No. We do not offer translation services. We are an educational consultancy and work in the space of skills development.
